MEMBER SPOTLIGHT

Claud and Tieann Blackburn's mineral gray 2002 GT is this month's spotlight car. Their car has a modified 4.6L V8 with 5 speed manual transmission. The interior has charcoal leather and Mach 1000 stereo system. Their car has many modifications including PowerPlus aluminum upper and lower intake, Ford racing throttle body, Granitelli mass air with K&N filter, Ford racing 24 lb. injectors, Diablo Predator performance tune, performance pulleys, off-road H pipe with Borla stainless exhaust and Ford Racing 3.73 rear gear. All modifications were done by Wedan Street & Performance. All the mods really helped the cars acceleration without negatively impacting the fuel economy too much. The car is used as Claud's daily driver except in the winter and when he rides his bike to work. Claud says the Mach 1000 stereo sounds great but the speakers in the trunk take up to much room.
